What our clients say

We have been using Step 2 Education online courses to educate our staff about BFI and breastfeeding for over 6 years. Truly it has been a wonderful experience and totally stress free from the administrative point of view.

I really appreciate the ongoing updates and improvements to the information in the course. There is no worries about information being out-dated or incorrect. I can't think of one thing needed to make it a perfect solution for our education needs!

Donna Brown, DECRH Fredericton, NB, Canada

The education provided in the Step 2 module is invaluable. I found the presentation to be clear and fresh, vary readable, and incredibly educational.

I appreciated the teaching aids along the way; column matching, quizzes and "things to remember". All contributed to the learning that was intended. I appreciate everything that went into compiling the information and presentation. Thank you.

Sue Somers, Best Fed Beginnings

60,000

the number of medical professionals who have taken our course across 14 countries

95%

of staff found ES02 was more convenient (most rating it very or extremely convenient) than other training they had completed
